

Knowing the Differences:

Cultivating Achievement for Foster Care Youth in College

Do you teach, mentor or work with students who have grown up in foster care? Do you know that less than 5% of foster youth graduate college? Do you know how the experience of foster care affects a young person's world view? Do you know how young people from foster care experience college differently than other students?

These questions and others will be addressed by a former foster youth at a
FREE PUBLIC LECTURE.

PRESENTED BY

Cherish L. Thomas

*Foster Care Alumna &
Graduate Student at University of Michigan*

***Friday May 6, 2011
NOON to 1:30 pm
